International matches and WDF Cup Tournaments

Nigel Boeg 2020-01-23 This book has been compiled to provide details of tournament winners and runners up on International matches and WDF Cup tournaments. Every effort has been used to identify winners and runners up of tournaments and in some cases there will be results "missing". If these can be identified they will be included in another edition of this book in the future. There maybe errors with names being misspelt and that ladies surnames may have changed. An enormous amount of time and effort to correctly record the results of the tournaments. This is the tenth ebook to be published detailing tournament results. I hope you enjoy the book.

It is an absolute MUST READ for every mother, every father and every coach who is genuinely interested in their tennis-playing child and their best possible development.

Treat this game no different than a gunfight. When you step up to the table, shoot like you have never shot before. Look for your opponents' weakness; leave nothing for them to shot. Keep your thought until you have won the game, stay focused, stay calm. Never secondguess yourself, ever. Walk around the table and pull your thoughts back; there are no shots too hard for you to make. Just shoot them. If your shots are not measuring up, get practicing golf on a six-by-twelve table. This stabilizes your stroke, sharpens your view to the ball, and teaches proper weight per roll. Also best table to practice masseacute; shots. Remember in this game, winning is everything. I believe this book has taken me to the top-dog position in my league because I had to write it to get my own game back to the level of play I am at now. Just reviewing what I know has helped enormously. Don't take your game for granted, practice, challenge.

The College Tennis Recruitment Guide Luke Gamble 2020-07-07 Luke and Anonymous While there are a lot of educational consultants and companies that make a business out of selling education and recruiting advice and services, we are motivated by the fact that we both wish a book like this existed while we were going through the recruitment process. We had very different, but also very difficult recruiting processes. Both of us have had incredible experiences playing college tennis, and we want to make sure that opportunity is available for all who have the ability to play college tennis but need help with the first steps or with getting started. We thought it was about time that someone came out with a clear guide for how to navigate the system and lower the barriers of entry for players around the world. Luke graduated from Princeton in 2018. He was born in Idaho but grew up and was recruited from San Jose, Costa Rica. For the first half of high school, he attended a "regular" school playing varsity soccer, basketball, and volleyball. In grade 11, Luke decided to specialize in tennis and spent the next two years playing ITF junior tournaments. He competed in the Junior Australian Open and the U.S. Open. During college, Luke was ranked as high as #13 in the NCAA in doubles. Luke is currently pursuing professional tennis. Anonymous joined a top ten academic school in 2017. He has to keep his identity hidden due to NCAA regulations. As a student-athlete, it is forbidden to use your name and the name of the college to promote a product. Anonymous began to play tennis in London at age ten. From ages 10 to 13 he played as much tennis as possible outside of school hours. At 13 he joined a school with an integrated tennis academy that allows students to play as much tennis as possible during a school day. From here his level kept increasing and began to make a natural transition from regional, then nationals, and finally ITF tournaments. By his junior and senior year, Anonymous had won a couple of ITF Junior titles and competed in Junior Wimbledon.
